Read the passage carefully and answer the questions that follow.

Sally opened her eyes as soon as the alarm clock rang. Immediately, she turned it off. The day had finally arrived. She could not contain her excitement. She would be going for a hike at Bukit Timah Nature Reserve with her classmates that afternoon.

As soon as Sally got out of bed, she felt a slight itch on both her arms. Looking down, she noticed some tiny red spots. **They** looked like mosquito bites. Puzzled, she thought, "Why are there so many mosquito bites?"

As Sally made her way to the bathroom, she suddenly felt giddy and feverish. She looked at herself in the mirror and was horrified to see tiny red dots all over her face! She had no idea what was wrong with her.

"Mum, look at my face and arms! I feel itchy!" Sally sobbed as she ran into the kitchen.

Her mother stopped washing the dishes. Immediately, she inspected the red spots on Sally's face and said, "You might have contracted chicken pox. We should visit a doctor to be sure." She then looked at the grandfather clock to confirm that the doctor's clinic was still open before bringing her daughter to the clinic.

Doctor Tan, the family physician, confirmed her mother's words. He explained that chicken pox is contagious and Sally would have to stay at home for the next two weeks. She was told that she should also avoid scratching them as it would leave scars all over her body. Sally's heart sank.

"Sally, I'm sorry that you will have to miss the hike," Sally's mother said sympathetically.
